Description of Business

Blackrock Gold Corp. (Formerly Almo Capital Corp.) (herein "the Company") was incorporated under the Companies Act of the Province of British Columbia on April 16, 1999. Pursuant to CDNX (TSX Venture Exchange) Policy Number 2.4 the Company was established as a Capital Pool Company and the shares started trading on the CDNX under the symbol APT on July 20, 2000. For its qualifying transaction, the Company acquired Property #1, D.D. Mineral Property containing nickel, cobalt, copper, platinum, palladium and gold in the Cariboo Mining Division on December 16, 2003 and completed its requirements on April 30, 2006 by spending at least \$240,582 on exploration of the D.D. Mineral Property.

The Company is engaged in the acquisition, exploration and development of mineral properties in North America. The Company owns 100% the Moore Property Located in the Kamloops Mining Division of British Columbia. The company recently entered into a Leases agreement on Silver Cloud project situated in Elko, Nevada, and known as the Silver Cloud Project (the "Property"). The Lease affords Blackrock all rights and privileges incidental to ownership, including rights to explore, develop, and mine the Property. The term of the Lease is 10 years from October 27, 2017 and so long thereafter as a) exploration and/or development is taking place on the Property and/or b) the Property is held by Blackrock or its successors and assigns, unless earlier terminated in accordance with the terms of the Lease. The arrangements with respect to the Lease are subject to prior approval by the TSX Venture Exchange (the "Exchange"). The Company received final Exchange approval subsequent to period end.

Effective July 27, 2016, the Company changed its name from Almo Capital Corp. to Blackrock Gold Corp. The Company's shares began trading on the TSX Venture Exchange ("TSX-V") under the symbol "BRC.V" on July 27, 2016.

Future Accounting Pronouncements

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not yet early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements. Those that may be applicable to the Company are as follows:

IFRS 9 Financial Instruments

IFRS 9 reflects all phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. The Company continues to evaluate the impact of IFRS 9; however, based on the evaluation performed to date, the Company does not anticipate the standard to have a material impact on the consolidated financial statements upon adoption.

Silver Cloud Project

On October 27, 2017 the Company entered into a lease agreement (the “Lease”) with Pescio Exploration LLC (the “Lessor”) with respect to 552 unpatented lode mining claims situated in Elko, Nevada, and known as the Silver Cloud Project (the “Property”). The Lease affords Blackrock all rights and privileges incidental to ownership, including rights to explore, develop, and mine the Property. The term of the Lease is 10 years from October 27, 2017 and so long thereafter as a) exploration and/or development is taking place on the Property and/or b) the Property is held by Blackrock or its successors and assigns, unless earlier terminated in accordance with the terms of the Lease. The arrangements with respect to the Lease are subject to prior approval by the TSX Venture Exchange (the “Exchange”).

To acquire and maintain the Lease in good standing, Blackrock will be required to:

- (a) reimburse the Lessor approximately US\$92,000 for the 2017 Bureau of Land Management fee upon exchange approval;
- (b) within 5 days of Exchange approval, pay US\$50,000 and issue 500,000 common shares of Blackrock to the Lessor at a deemed price of \$0.06 per share;
- (c) on December 20, 2017, pay an additional US\$50,000 and issue to the Lessor an additional 500,000 common shares of Blackrock;
- (d) perform a minimum total of 15,000 feet of drilling on the Property during the first 3 years of the term of the Lease;
- (e) make additional payment amounts totalling US\$3,650,000 over the following 8 years; and
- (f) drilling an additional 90,000 feet from years four to nine.

Blackrock will also pay a royalty of 3.5% of the gross value of production (the “Gross Royalty”) on the sale of minerals from the Property. All annual payments made by Blackrock and described above will be credited cumulatively against Blackrock’s commitments pursuant to the Gross Royalty. Furthermore, Blackrock has an option to buy down the Gross Royalty by 1.5% to 2.0% by payment to the Lessor of US\$3,000,000 at its sole discretion and at any time on or before October 28, 2022

The Company received final Exchange approval subsequent to period end

Risk and Uncertainties

The company is in the mineral exploration and development business and as such is exposed to a number of risks and uncertainties that are not uncommon to other companies in similar businesses. The industry is capital intensive and subject to fluctuations in metal prices, market sentiment, foreign exchange and interest rates. There is no certainty that properties which the Company has described as assets on its balance sheet will be realized at the amounts recorded.

The only sources of future funds for further exploration programs or if such exploration programs are successful for the development of economic ore bodies and commencement of commercial production thereon, which are presently available to the Company are the sale of equity capital or the offering of the Company of an interest in its properties to be earned by another party carrying out further exploration or development. Although the Company was very successful in accessing the equity market during the past year, there is no certainty or assurance that such sources of financing will be available on acceptable terms, if at all. Management at this time has no reason to expect that this capability will diminish in the near future.

Critical Accounting Estimates

Critical accounting estimates used in the preparation of the financial statements. These estimates involve considerable judgment and are, or could be, affected by significant factors that are out of the Company's control. The Company's recorded value of the Company's mineral properties is in all cases, based on historical costs that are to be recovered in the future. The Company's recoverability evaluation is based on market conditions of minerals, underlying mineral resources associated with the properties and future costs that may be required for ultimate realization through mining operations or by sale or by joint venture. The Company is in an industry that is exposed to a number of risks and uncertainties, including exploration risk, development risk, commodity price risk, operating risk, ownership and political risk, funding and currency risk as well as environmental risk and risks arising out of the traditional territories of Native Indian Bands. The Company's financial statements have been prepared with these risks in mind. All of the assumptions set out herein are potentially subject to significant change and out of the Company's control. These changes are not determinable at this time.
