1) NATURE OF OPERATIONS AND GOING CONCERN

Blackrock Gold Corp. (Formerly Almo Capital Corp.) ("our" or the "Company") was incorporated on April 16, 1999 under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition, exploration and development of mineral properties located in Canada. Effective July 27, 2016, the Company changed its name from Almo Capital Corp. to Blackrock Gold Corp. The Company's shares began trading on the TSX Venture Exchange ("TSX-V") under the symbol "BRC.V" on July 27, 2016.

The head office, registered address, principal address and records office of the Company are located at 1500-409 Granville Street, Vancouver, BC, V6C 1T2.

These financial statements have been prepared assuming the Company will continue on a going-concern basis, or that it will continue to realize its assets and meet its obligations in the normal course of business. The Company has incurred losses since inception and has an accumulated operating deficit of $1,704,628 at July 31, 2017 (October 31, 2016 - $2,058,964). The ability of the Company to continue as a going-concern depends upon its ability to develop profitable operations and to continue to raise adequate equity and/or debt financing to fund its exploration and administrative expenses.

There can be no assurance that the Company will be able to continue to raise funds, in which case the Company may be unable to meet its obligations. Should the Company be unable to realize on its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts recorded in the statement of financial position. These conditions indicate the existence of material uncertainties that cast significant doubt that the Company will be able to continue on a going concern basis. Failure to maintain the support of creditors and obtain additional external equity financing will cause the Company to curtail operations and the Company's ability to continue as a going concern will be impaired. The outcome of these matters cannot be predicted at this time. These financial statements contain no adjustments which would likely become necessary should the Company become unable to continue as a going concern.

Management plans to continue to pursue equity and debt financing to support operations. Management believes this plan will be sufficient to meet the Company's liabilities and commitments as they become payable over the next twelve months. There can be no assurance that management's plan will be successful.

2) SIGNIFICANT ACCOUNTING POLICIES

These financial statements were authorized for issue on September 29, 2017 by the directors of the Company.

Statement of compliance to International Financial Reporting Standards

These condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). These financial statements comply with International Accounting Standard 34, Interim Financial Reporting ("IAS 34").

Basis of presentation

This condensed interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended October 31, 2016.

2) SIGNIFICANT ACCOUNTING POLICIES – Continued

Basis of presentation - Continued

However, this condensed interim financial report provides selected significant disclosures that are required in the annual financial statements under IFRS.

Certain amounts in prior periods have been reclassified to conform to the current period presentation.

These condensed interim financial statements follow the same accounting policies and methods of application as the annual audited financial statements for the year ended October 31, 2016.

Recent Accounting Pronouncements

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not yet early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements. Those that may be applicable to the Company are as follows:

IFRS 9 Financial Instruments

IFRS 9 reflects all phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. The Company does not anticipate any material impact on the Company's financial statements with the adoption of this pronouncement.

IFRS 16 Leases

IFRS 16 The new standard will replace IAS 17 Leases and eliminates the classification of leases as either operating or finance leases by the lessee. The treatment of leases by the lessee will require capitalization of all leases resulting in an accounting treatment similar to finance leases under IAS 17 Leases. Exemptions for leases of very low value or short- term leases will be applicable. The new standard will result in an increase in lease assets and liabilities for the lessee.

Under the new standard, the treatment of all lease expense is aligned in the statement of earnings with depreciation, and an interest component recognized for each lease, in line with finance lease accounting under 17 Leases. IFRS 16 will be applied prospectively for annual periods beginning on January 1, 2019. The Company does not anticipate any material impact on the Company's financial statements with the adoption of this pronouncement.

3) EXPLORATION AND EVALUATION ASSETS

Title Disclaimer

As at July 31, 2017 all of the Company's exploration and evaluation assets are located in British Columbia, Canada and Nevada, United States. Title to mining properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mining properties. The Company has investigated title to all of its minerals properties and, to the best of its knowledge; both of its properties are in good standing.
